Dated 15th May 1938.

The Secretary to the Board of Revenue,

Sir,

Sub.:- Famine - Relief works - opening of a second charge near Kuruhodu---Yemmiganur road - report - submitted.

The range of operations on Kuruhodu-Yemmiganur road relief work extends over a distance of 13 miles. As the work on this road has neared completion, the extension of the road beyond Yemmiganur from Kalldi-Kampli in Hospet taluk which covers a distance of about 4 miles has been taken up. The charge has thus become impossibly long and the Charge Officer and work agents are now unable to effectively manage it and also supervise the subordinate sheds in the charge. The Medical Officer can also not visit work spots sufficiently frequently. As a result of this supervision has become rather slack. Another consolidation cannot be taken up after the rains there is very little work remaining to be done in the first 8 miles from Kuruhodu. It is also proposed to transfer labour from the neighbourhood of Kuruhodu to the 4 miles where the distance is too great. Though these do not fully justify it, I therefore propose to split it up into two charges. A Relief Officer will be in the anti-malarial season, while the Yemmiganur-Kampli section of the road with the work there will be under the Relief Officer Kuruhodu. The road from Kuruhodu to the [illegible] will be taken up [illegible] Yemmiganur. [illegible] Kampli [illegible] ready. [illegible] there is [illegible] between these

two works, and too far from either for it to be advisable to expect workers to attend them. Approximately 1000 people from these villages are at present on relief. In order to provide work to the people of these villages, I propose to take up the work of silt clearance in the Kunta at Mallu Kambham as a minor departmental work and put it in charge of the Charge Officer and work-agents of Badanahatti-Bellary Road. The work is in the famine programme of Bellary taluk for 1937-38. The serial number of the work is 6 under Part I Irrigation works - not passed and approved.' An estimate is ready. I propose to take it up as a minor departmental work rather than a village work, as this will be less expensive, as it can be supervised by the staff of the Budenahatti work. The proposal is not an ideal one, but I have been unable to discover an alternative, as there is very little suitable work in this neighbourhood, and the villages requiring relief are scattered. It may be possible to recombine these charges when the rains set in and consolidation is taken up. I request that the Board may be pleased to sanction Budenahatti-Bellary road and repairs to the Kunta at Mallukambham as relief work in the circumstances explained above.
